Sector regulators are more likely better suited to technical regulation than competition authorities. Competition authorities have necessary skills for delineating relevant markets, assessing likelihood of harm to competition, assessing entry conditions and assessing significant market power. The relationship between Nevertheless, the primary government tasks which have to be completed in regulated sectors are as follows. The relationship between When explaining connections between competition policy and regulation in the sector-specific spheres, it is useful to think in the framework of structure-behavior-performance paradigm. Angora and Amasia are other places in the north of Asia Minor whence opium is obtained.
